

Naifa Mumtazah Rendiga

Surabaya, East Java | nevamuren@gmail.com | +62 85236323638 | [LinkedIn](#) | [Portfolio](#)

A recent Information Systems graduate from Institut Teknologi Sepuluh Nopember with a strong foundation in data analytics, engineering, and business intelligence. Experienced through academic and professional projects in building end-to-end ETL pipelines, developing interactive dashboards, and managing databases using SQL, Python, Pentaho, and Power BI. A detail-oriented, collaborative, and fast-learning professional eager to translate complex datasets into scalable, data-driven solutions.

EDUCATION

Bachelor's Degree in Information Systems, Institut Teknologi Sepuluh Nopember 2022 – 2026

GPA: 3.59/4.00

Key Coursework: Data and Diagnostic Analytics, Data Lakehouse, Database Systems, Algorithm and Data Structure, Statistics, Predictive Modelling and Analytics, Natural Language Processing.

WORK EXPERIENCES

Information Systems Department, Institut Teknologi Sepuluh Nopember Nov – Dec 2025

Teaching Assistant – Business Performance Dashboard Practicum

- Mentored 6 student groups in processing operational data and developing interactive performance reporting dashboards using Power BI.
- Guided students in structuring data and defining clear business metrics, ensuring the final dashboards are functionally accurate and aesthetically readable for users.
- Evaluated and provided constructive feedback on data visualization layouts to improve the overall quality of operational reporting.

PT Pelindo Energi Logistik

Aug – Dec 2025

IT Project Support Intern

- Delivered invoice dashboards in Power BI for management reporting, with clear measures and consistent layouts.
- Built a WhatsApp help-desk chatbot with Python and Node, integrated with internal ticketing APIs to create, check, forward, and close tickets as well as handle password resets.
- Stabilized critical flows with session locking and a lightweight queue, reducing errors and improving reliability.
- Standardized API error handling and messaging, preventing repeated prompts and unexpected failures.

PROJECT & POROTOFLIO

IT Performance & KPI Visualization Dashboard Mar – Jun 2025

- Designed key performance indicators (KPIs) for an academic final project to support strategic IT performance measurement.
- Generated and structured mock datasets to simulate real-world business operations.
- Built user-friendly dashboards with dynamic filters, tooltips, and consistent layout for intuitive data exploration.
- Applied various visual elements to highlight trends, gaps, and targets.

Data Integration & Warehousing for Participant Selection Tools

Aug – Dec 2024

- Designed a star schema and warehouse tables as part of an academic final project for participant selection tools.
- Built end to end Pentaho ETL that joined and reconciled lecturer datasets, then loaded conformed dimensions and fact tables.
- Implemented surrogate keys and upsert logic, created a reusable time dimension, and published clean subject tables.

Time Series Forecasting for Airport Passenger Prediction

Aug – Dec 2024

- Prepared the data and created lag and calendar features for model training as part of an academic final project.
- Trained and compared SARIMA, LSTM, and a hybrid SARIMA-LSTM approach with tuned hyperparameters.
- Evaluated across multiple train and test splits using MAE and MAPE, and summarized insights for planning.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Sistem Informasi

Apr – Dec 2024

Secretary of Social Development

- Awarded Best Staff for managing division administration, supervising departmental fundraising, and serving as Treasurer for the SINERGI event to oversee budgeting and financial strategies.

Information Systems Expo (ISE!) 2024

May – Oct 2024

Head of Consumption

- Supervised a team of 8 members in planning, vendor negotiation, and procurement of meals for 300+ attendees and staff, achieving cost efficiency while ensuring on-time delivery.

Ini Lho ITS! 2024

Sep 2023 – Feb 2024

Secretary and Treasurer of Consumption

- Managed financial oversight, budgeting, and meal procurement for 500+ attendees and staff, maintaining 100% accurate financial records with strict adherence to the budget.

LICENCES & CERTIFICATES

Data Analysis – MySkill (*Issued Sep 2026*)

DevNet Associate – Cisco Networking Academy (*Issued Sep 2025*)

Secure BigLake Data – Google Cloud Skills Boost (*Issued Feb 2025*)

SKILLS & INTERESTS

Technical Skills & Tools: SQL, Python, Next.js, Node.js, Excel, Power BI, Pentaho Data Integration, REST API, Google Workspace, Canva.

Soft skills: Analytical Thinking, Communication, Proactive, Teamwork, Attention to Detail, Problem-Solving, Leadership.

Areas of Interest: Data Analysis, Data Engineering, Business Intelligence, Dashboard Development.
